Invitation to Participate in the Mapping Historical Dialogue Project

The Institute for the Study of Human Rights (ISHR) at Columbia University invites you, as an expert in your field, to participate in the development of the [Mapping Historical Dialogue Project \(MHDP\)](#).

The goal of the MHDP is to establish an online interactive geographical map that addresses mechanisms of contested memory in post conflict countries. The mapping process will document projects addressing the memory of historical violence. Building on a crowdsourcing model, the project will rely on incremental contributions to connect a diverse network of individuals who often do not have access or knowledge of one another's work. The project is open access, and its scholarship and resources will be available to a wide community of users. More information about the map can be found [here](#). If you have any questions, do not hesitate to contact us at mapping.historical.dialogue@gmail.com.
