

International Research School-DIRS

**The DEUSTO INTERNATIONAL RESEARCH SCHOOL (DIRS) will open  
the second call to recruit 8 Marie Skłodowska-Curie researchers**

Supported and co-funded by the European Commission (Marie Skłodowska-Curie) and over 40 partners, the **University of Deusto, will open the second call to recruit 8 early stage researchers for three years on the 1<sup>st</sup> of February, 2017**. As a result of the first call, launched in February 2016, 8 early stage researchers were enrolled by the Deusto International Research School (DIRS) last year to the corresponding PhD programmes and research teams of the University of Deusto.

DIRS attracts qualified international Early Stage Researchers for high quality PhD training. Selected researchers will enroll in an attractive and highly internationalised, inter-disciplinary and inter-sectoral research environment. PhD researchers will develop their work in one of the seven existing doctoral programmes linked to one of the four focus areas: Health and Wellbeing; Human Rights, Peace and Conflict Resolution; Sustainable Development and Innovation; and Education and Lifelong Learning.

Following high quality European Commission's requirements, the candidates will be selected via an open, transparent, merit-based, impartial, equitable and internationally advertised procedure, in order to avoid any kind of inequality or discrimination, guaranteeing a fair selection process.

Regarding terms and conditions, the selected candidates will sign an employment contract and will benefit from a shared supervision and mentoring process formally inscribed in the Doctoral Agreement and the individualized Personal Career Development Plan.

Full information on the vacancies and specific requirements will soon be published on the [website of DIRS-COFUND \(www.deusto.es/dirs-cofund.es\)](http://www.deusto.es/dirs-cofund.es). Please, check the website regularly for updates on this call.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement N° 665959. In addition, a number of institutions back and co-finance this project.
